YEARS

JOURNEY OF A DECADE

TECHNOLOGY, SCIENCE AND CLINICAL SPECTRUM TOGETHER

Welcome Message

JOURNEY OF A DECADE

TRAUMACON as we all know by now is a brand and we respect the feelings of the Trauma Surgeons who attend the scientific sessions and update themselves and others. We are overwhelmed by the response to this event in the past years. We are trying to maintain the standards of this event by analyzing the feedback. It has indeed been a challenge to maintain the high expectations towards this event. This year too, we will be having multiple practical oriented trauma sessions with excellent foreign faculty with whom you can interact on a personal basis.
